

Presenting Your Hack

Presentation:

- *Quickly* explain story/context
 - What problem is it solving?
 - What is it improving?
 - Where did the idea come from?
- Demo working product
- Highlight your most unique features - what makes your project stand out?
- Wrap it up and highlight the application and potential of the product

Tips:

- Keep track of time limits and rehearse!
- Keep it short and to the point
- Understand the judging criteria
- Focus on what you built, not just the idea
- Demo your project in front of a friends to get feedback
- Use the mic
- Practice, practice, practice!
- Mistakes/bugs happens - just move on
- Get some sleep!
